

**REMARKS/ARGUMENTS**

**35 USC §102(b)**

Claim 1 is rejected under §102(b) over Suzuki et al. This rejection is respectfully traversed.

Claim 1 recites, *inter alia*, utilizing the auto exposure setting to process said sensed image to add exposure specific graphics to said image.

The above feature is described, for example, at page 4, lines 15-19, of the present specification where it is exemplarily described that clip arts (i.e. graphics) of candles could be inserted in a dark image, and clip arts of large suns could be inserted into bright images.

Suzuki et al. fails to teach or suggest this feature.

Favorable reconsideration of the application in light of the above amendments and remarks is respectfully requested. Applicant looks forward to word of further official communication in due course.

Very respectfully,

Applicant/s:
